

Heritage Parks Association Firewise

October 9, 2026

Heritage Parks Association Members:

Our HOA is approaching the first- year anniversary of being a Certified Firewise Community. Benefits of being a Firewise Community include:

- having a home and neighborhood that is safer from wildfires
- possibility of obtaining home insurance coverage from a wider pool of insurers
- discounts from some home insurers

In order to remain “In Good Standing” and retain our Firewise Community designation we are required to submit a renewal application each year. This renewal requires gathering data from each homeowner regarding efforts to reduce wildfire risks. Data categories include: 1) vegetation removed, 2) hours worked and 3) money spent. Information from individual homeowners is summarized and submitted to Firewise USA. This year we are using Google Forms in an effort to make data gathering easier. Please click on the link below to enter your data for the past year (November 2025 to October 2026).

<https://forms.gle/xMLvXaKmMoyMtfDK8>

If you do not use email or the internet, we have attached a PDF form you can use to submit your data. Please complete that form and place it in Frank Kertai’s mailbox (address below).

Please submit your data by Saturday, October 31, 2026 so that we can meet our Firewise submission deadline.

Respectfully,

Frank Z. Kertai
Chair Heritage Parks Firewise Committee
